DATE INSERTS

Three-lay Combined Date Stamp

This kind of stamp, combined with Year and Month, doesn't need two date stamps, and therfore it can save machining cost and mould space. It is composed of 12 months and 5 years, and so you can use it for four years without change. It is much stable in quality than the replacement type, thus saving costs. (Begin from the year of 2010).

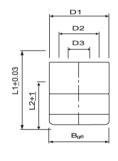

| European Standard=Size | | | | | | | | |
